

I-GRIP STRAIN RELIEF

KEY FEATURES

- ✓ Two eye connectors on grip
- ✓ Galvanised wire with aluminium connectors
- ✓ Designed for use with cord clamps/plugs

Strain Relief mesh grip with crimped eye connectors for easy attachment to cord clamps. Eye connectors allow for attachment with screws for secure placement and hold. Made of galvanised wire these grips come in a variety of cable ranges. When installed relieves strain from bend angle and secures cord from pull out potential. Connectors made of aluminium.

Dimensions

The figures shown are indicative only. Fully dimensioned data-sheets are available on request. Nominal figures/actuals are as per data-sheet with tolerances of +/-10%. Please contact us if you have any questions.

Range dimension overlaps If the cable, rope or hose you have lies where ranges overlap, e.g. 1" when sizing is 0.5-1.00 and 1.00-1.5 we recommend that you select your cable grip to achieve break load first. If tensile strengths are equal or both adequate, choose the smaller of the two. Please contact us if you have any questions.
