UMBILICAL AND
SUBSEA CABLE
INSTALLATIONS

CABLE PULLING GRIPS FOR ARRAY, EXPORT, UMBILICAL AND SUBSEA CABLE INSTALLATIONS

These speciality cable grips are extremely heavy duty and suitable for large underwater pulls, plus other applications in the oil and gas industries.

Galvanised steel construction for heavy duty large diameter pulls. Applications include underwater cable installation. Available in single eye, double eye lace closing and double eye. Sizes range from 90 mm (3.5 in) to 285 mm (11.22 in).

Manufactured to order.

Larger sizes and different material grades in stainless and aramid available on request.
