

**NON-METALLIC ARAMID
CABLE GRIPS**

**MADE TO LAST AND
HOLD IN SALT WATER,
WASTE WATER AND
WHERE POLLUTANTS
ARE PRESENT**

UV-RESISTANT NON-METALLIC ARAMID CABLE GRIPS

- Break loads similar to steel cable grips
- Lightweight
- No more frayed grip wires
- UV Resistant and strong enough to last in salt water, pollutants, and underground
- We can create custom grips to meet your specifications

Slingco's line of Non-Metallic Aramid Cable Grips are ideal for use in fiber optic cable installation operations, offshore applications, or for a multitude of uses in the utilities industry.

These grips are made of a high-strength, non-metallic aramid fiber, with UV protective coating, and now feature an improved weight to break ratio. They are suitable for pulling both single cable and multiple cable bundles.

Thanks to the non-metallic material, these grips are easy to work with even without gloves. The woven mesh material

also offers a non-metallic, non-conductive alternative to steel grips.

We have many different styles of Non-Metallic Aramid Cable Grips for your project, such as Single Eye, Double Eye, Offset Eye, Lace Up, Mining Grips, and our new Single Eye Double Weave Grips made of ultra flex aramid material. We can also work with you to customize an Aramid Cable Grip to match any particular project specifications.

Call your Slingco Account Manager today and they will help you select the right grip for your project!
