

## I-GRIP STRAIN RELIEF

### KEY FEATURES

- ✓ Two eye connectors on grip
- ✓ Galvanized wire with aluminum connectors
- ✓ Designed for use with cord clamps/plugs

Strain Relief mesh grip with crimped eye connectors for easy attachment to cord clamps. Eye connectors allow for attachment with screws for secure placement and hold. Made of galvanized wire these grips come in a variety of cable ranges. When installed relieves strain from bend angle and secures cord from pull out potential. Connectors made of aluminum.

# I-GRIP STRAIN RELIEF

**Range dimension overlaps** If the cable, rope or hose you have lies where ranges overlap, e.g. 1" when sizing is 0.5-1.00 and 1.00-1.5 we recommend that you select your cable grip to achieve break load first. If tensile strengths are equal or both adequate, choose the smaller of the two. Please contact us if you have any questions.
