- **DO NOT** operate without proper head protection.

#### GLOVES REQUIRED

- **DO NOT** operate without proper hand protection.

## DESCRIPTION

All Slingco Pole Transportation Kits fit typical distribution size poles and includes 7ft of web strapping. Slingco recommends that you comply with all DOT transportation regulations for the states you intend to transport in. Slingco recommends that you verify that the Pole Transportation Kit is installed securely, excess strapping, and both flags are secure before transportation. Slingco also recommends this is checked every 50 miles of travel. This product is intended to be temporary. Inspect item before each use for wear, tear, or damage of any kind (including weldment, nuts and bolts). Protect the strap from sharp objects, chemicals, excessive UV or anything else that could damage the integrity of the strap.

The Slingco Pole Transportation Kit has a QR code on the product, so its manual is always available. If this manual

is misplaced or destroyed, please contact your local Slingco distributor for a replacement.

Slingco's 360 degree, high visibility Pole Transportation kit with light and flags includes heavy duty frame, ratchet strap, two flags, two 'D' size batteries, and a 360 degree LED pole light. The Slingco light can either flash or be solid by flipping the switch which can be found in the bottom compartment of the light. If you switch to 'On' you will get a solid light. If the switch is 'Off' the light will flash. The light also features an O-ring to create a weather resistant seal. Slingco recommends that the nuts on the light cage are torqued to 9in-lb (1Nm).

Slingcos pole transportation kits with flags includes heavy duty frame, ratchet strap and either 2 or 3 flags.

### Available spares:

- Flags (in pairs): TPE12579
- Ratchet straps: TPE12670
- Light (Red): TPE12589
- Light (Amber): TPE12409
